

Forget everything you've ever heard about summer school.

Ours is so different, we call it **Summer Academic Camp**.

We design our program to fit your child's need, rather than expect your child to fit our program.

If your child struggles to meet grade level expectations, our Academic Summer Camp can help.

We offer small class sizes in a relaxed, yet productive atmosphere. Our specially trained teachers are skilled at remedial instruction and will challenge your child academically. *All programs begin June 18*
